

## **OGE fuel gas tender 2027 & 2028**

1. Overview of the tender
2. Offer Sheets Bands & Structures
3. The nomination process
4. Documents for prequalification

# Overview of tenders for OGE fuel gas 2027 & 2028

**Demand request:** Approx. 2.7 TWh (max. 4 TWh)

**Tender start:** february 26<sup>th</sup> 2026

**Submission deadline:** march 25<sup>th</sup> 2026 – 10:00 a.m.

**Award:** march 25<sup>th</sup> 2026 – 1:00 p.m.

**Prequalification:** until march 18<sup>th</sup> 2026 – 10:00 p.m.

- signed OGE EFET contract

- [Proof of Credit Rating](#)

- [ESG Rating Integrity Next](#)

**Tender products:**

- [Bands](#) (fixed purchase quantity)

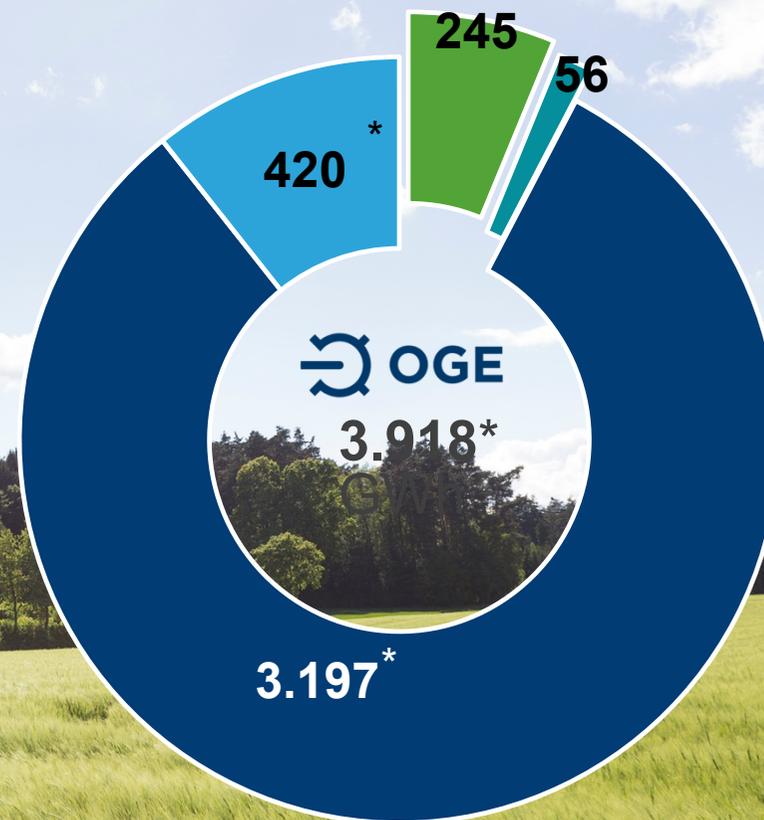

- [Structures](#) \* ([flexible purchase quantity](#),  
[nomination model](#) )

■ Annual bands H-gas

■ Quarter bands H-gas

■ Structures H-gas

■ Structures L-gas

\* Maximum values in GWh/a, with full consumption

# Offer sheet H – gas annual bands 2027 & 2028

**Product inquiry:** annual band products (quantities see below)

**Delivery period:** 01/01/2027– 01/01/2028; 01/01/2028– 01/01/2029; from 6:00 a.m. to 6:00 a.m

**Pricing:** Index + handling fee (€/MWh)

**Contract:** signed OGE EFET contract

**Index:** Spot price THE for day- ahead and weekend, end of day €/MWh ( [www.powernext.com](http://www.powernext.com) )

**Gas quality:** Technical rules of the DVGW, valid version of worksheet G 260

# Nomination procedure (H & L-gas structures) 1/2

- OGE and suppliers exchange contact data sheets.
- OGE notifies the supplier of the natural gas quantities from the structured contracts that OGE wishes to take over at the virtual trading point.
- Quantities are nominated in kWh in the form of a daily band, i.e. the quantities are nominated for the delivery day as twenty-four (24) equal hourly quantities (with summer/winter time changeover corresponding to 23 or 25 hourly quantities)

## **Content of the nomination procedure:**

The nomination contains at least the following information:

- the contract number of the natural gas supply contract,
- the code of the THE balancing group contract,
- the VHP as a transfer point,
- the validity period,
- the hourly amount in kWh.

# Nomination procedure (H & L gas structures) 2/2

## Daily nomination procedure

The daily nomination is binding for the following day by 2:00 p.m.

## Confirmation by the supplier

- The confirmation of the daily nomination is made by the nomination of the supplier at the virtual trading point.

## Data provision

- The transmission and exchange of the business data, information or documents required for the settlement is carried out via the EDIG@S protocol.

## Treatment of exceptional operating situations (performance obstacles)

- If the supplier cannot fulfill his obligations or can only fulfill them to a limited extent, he must provide information by telephone (and confirmed in writing) about the expected scope, duration and cause.

# Prequalification / proof of credit rating

To prove financial eligibility, the applicant must have a good credit rating.

Evidence is provided if a rating from one of the following credit reports is available with at least the following rating or similar rating for the applicant:

- Moody's (Baa3)
- Standards & Poors (BBB-)
- Fitch (BBB-)
- Creditreform risk class I-II

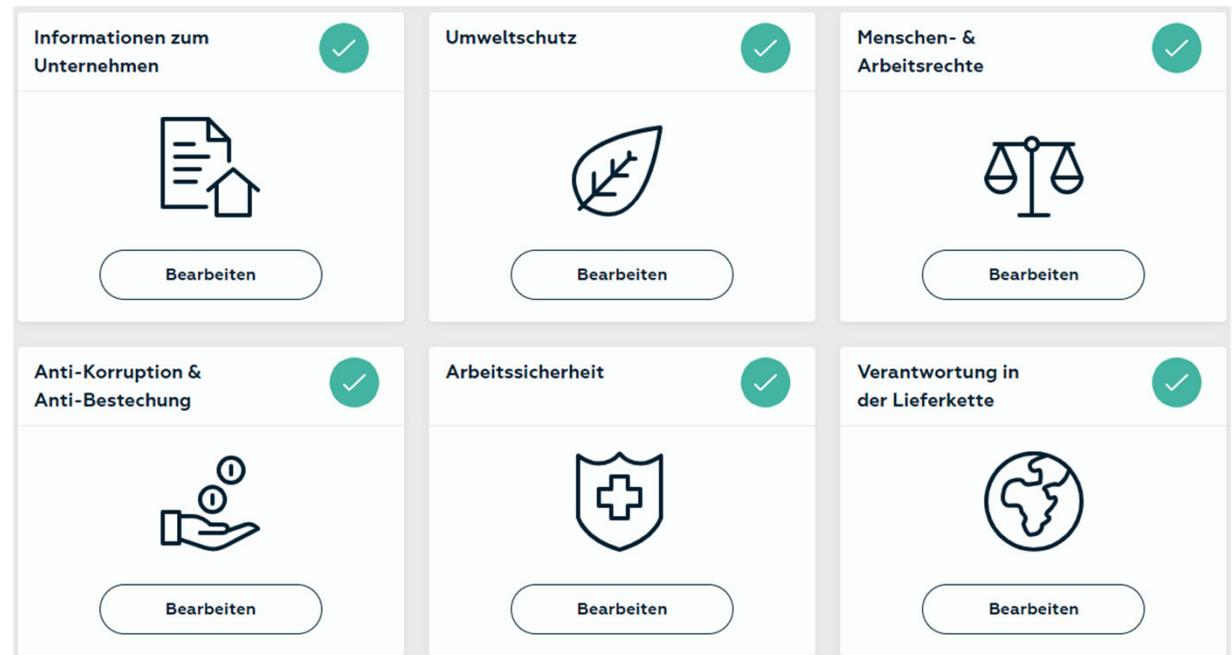

# Documents for prequalification / ESG assessment via the Integrity Next platform

In order to **prove the ESG requirements** for the purpose of making an award decision, you must register with the Integrity Next (INX) platform (free of charge).

<https://www.integritynext.com/de/>

## INX registration procedure:

1. Fill out template for registration\*
2. INX sends registration link
3. Fill out questionnaires

\* If a company is already registered with INX, please enter the email address of the existing account.

# Template for registration Integrity Next(INX)

*Only to be filled out if an INX account does not yet exist/has been reported to OGE.*
